Measure	Incentive		Measure guidelines*
Exterior doors	\$3.75	Per SF	ENERGY STAR® (Northern climate zone) - Combustion safety test required (Appendix F2 - Windows)

Bonus rebate information

Bundling bonus

Efficiency Works is offering eligible residential customers a \$2,000 bundling bonus in 2026 for eligible heat pump and envelope measures (excluding heat pump water heaters) completed through the Retrofit Rebate program. To qualify, both upgrades must be completed within six months of each other, and the rebates and bonus cannot be more than the combined project cost. Bonus does not double for eligible rental properties. Funding is limited and subject to change.

Eligible measures	
Heat Pump	Envelope
Air source heat pump, ducted or partially ducted	Air sealing: Minimum Tier 1 (>15%)
Air source heat pump, non-ducted	Windows and sliding glass doors
Ground source heat pump	Doors

Rental bonus

Efficiency Works Homes is offering a residential rental property bonus in 2026 (Fort Collins only) – double the standard rebate for any measure through the Retrofit Rebate program only – must have a minimum 12-month active lease. Property managers or owners are required to provide a signed self-attestation, located [here](#). This bonus is only available for residential properties served by Fort Collins Utilities. Projects must receive preapproval **before work begins** to be eligible. Funding is limited and subject to change.

Incentive details and requirements

1. Must be installed by an Efficiency Works Homes listed service provider.
2. The home must be at least one year old.
3. Rebates are available for NEW equipment only. Used or refurbished equipment does not qualify.
4. Proof of purchase required. Proof of purchase, or other supporting documentation, must include: date of purchase, price paid, model information to verify eligibility and shipping information if applicable.
5. Must meet all installation, documentation, testing and commissioning requirements.
6. Eligible customers are residential electric customers of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications or City of Loveland Utilities.
7. Applications must be submitted within 45 days of purchase or project completion.
8. Total incentives are limited to 100% of a project's total upgrade cost.
9. Program reserves the right to verify installation of a rebated product.
10. Limits apply – either through eligible application cap or by availability of rebate funds.
11. Efficiency Works reserves the right to discontinue or change measure values and guidelines without official notice.
12. Total incentive amounts over \$2,500 require pre-approval before upgrades begin. Applications with total incentive amounts over \$2,500 that did not receive pre-approval will have a total incentive value capped at \$2,500.

Additional incentives

Measures ¹	Efficiency Works rebate	Total potential incentives
Windows/Doors - Tier 1	\$3.75 per SF	\$1,500
Windows/Doors - Tier 2	\$5 per SF	\$2,000

No known 2026 rebate stacking available

¹ The provided values are based on a 20 SF window, with 20 windows within the home.
